Hands-on experience with SpecFlow (Reqnroll), GIT, Visual Studio/Rider, and SQL. ▪ Ability to work effectively across stakeholder teams.
Additional skills & experience	<p>Experience in Energy Trading or Capital Markets is a strong advantage BSc in Computer Science or a related field.</p>

There's really no such thing as a "perfect" candidate. If you feel you've got the skills and potential for the role but don't tick every single box on the list, we'd still love to hear from you.

We're committed to creating a workplace where everyone feels included, respected, and supported. Different perspectives help us grow, innovate, and do our best work, so we truly welcome applicants from all backgrounds, cultures, and experiences.

We're proud to be an equal opportunity employer. That means we do not discriminate based on race, ethnicity, religion, gender, sexual orientation, disability, age, or any other protected characteristic. Our recruitment process is built to be fair and transparent, giving every candidate an equal chance to be part of what we're building.

If you need any adjustments or accommodations during the recruitment process, just let us know, we're here to help.
